

Bexhill UK is a market leading provider of insurance premium finance.

Formed in 2000 we continue to innovate and offer our partners new funding solutions to ensure they stay ahead of the game. Bexhill UK revolutionised the premium finance market by offering a unique in-house facility for insurance brokers and insurers who want the convenience and rewards that come from running their own premium finance company. As well as being the first organisation in the country to provide the in-house finance facility, Bexhill UK also provides a direct premium finance solution.

Bexhill UK has gone from strength to strength, a highly respected brand which has supported our partners throughout changing economic times. In 2015 we floated on the London Stock Exchange and were the first premium finance provider to receive full FCA authorisation. As a testament to our commitment to working with our partners we are also very proud to have assisted with a number of their FCA applications.
