BEXHILL

INSURANCE PREMIUM FUNDING

Bexhill UK a market leading provider of insurance premium finance

Bexhill UK offers exclusive and tailored premium finance solutions to our clients.

Bexhill UK revolutionised the market 20 years ago by enabling insurers and brokers to offer in-house premium finance to their clients.

As well as being the first organisation in the country to provide a full in-house finance solution, Bexhill UK also provides a direct premium finance solution to its clients.

Bexhill UK has gone from strength to strength, a highly respected brand which has supported our partners through challenging economic times.

In 2015 we floated on the London Stock Exchange and now benefit from strong institutional backing to our business.

Our senior management team has been working in the business for over 20 years and has an unparalleled expertise in all aspects of premium finance.

In-House Premium Finance Solution

Market leading insurers and brokers offer in-house premium finance to their customers. Bexhill UK has helped over 100 brokers to join this exclusive club.

Changes in FCA rules relating to the commission earned by brokers on insurance premium finance will challenge this critical source of income for brokers.

Working with Bexhill UK, brokers that offer in-house own premium finance are able to future proof their premium finance income.

We can guide you through a number of quick and simple steps to enable you to provide premium finance to your customers and protect your future premium finance income.

Direct Premium Finance Solution

Our Direct Premium Finance facility offers financing to your customers at market leading rates with market leading commission structures and market leading service.

Flexible Commission Structure - tailored to our clients' requirements

Customer Service - unparalleled customer service

Flexibility - we offer bespoke underwriting and you are able to offer your clients 3-11 month terms

Simple to use system - a system which was built with the user in mind

Quick Settlement - we minimize cash settlement period

Low charges to your clients - low default fees and no midterm adjustment fees

E-signature option - less paperwork, convenient and environmentally friendly
